MYOPEP, REGENAPEP, AND ENHANCEPEP TABLETS ACCEPTABLE CONDITION

Dear valued Customers and Associates of LAB RMS,

We have been informed that due to handling, pressurized environment and climate change during transit, our Myopep, Regenapep and Enhancepep tablets which are fragile may crack or break within a secured and untampered blister. Quality is always very important to us. We assure you that this does not compromise the efficacy, potency and safety of the products that are within the expiry date. Customers are reminded to check thoroughly the integrity of the sealed package to assure the product has not been tampered with or damaged during transit.

Thank you

QA and Technical team
